

JOURNAL
OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 8 May 1963

1. (Internal Use Only - JSW) William Darden telephoned stating that Senator Richard B. Russell had inquired if either Mr. McCone or General Carter could meet with Senator Russell and Senator Leverett Saltonstall. Arrangements were made and General Carter met with Senators Russell and Saltonstall for about 45 minutes answering various questions about the world situation. See Memorandum for the Record.

2. (Internal Use Only - JSW) Jim Kendall, Senate Preparedness Investigating Subcommittee staff, called with particular reference to the first paragraph on page 13 of the revised Cuban report. He referred us to Gilpatrick's statement in a press interview in the Congressional Record of 11 February 1963 where Gilpatrick states we had photographed fewer missiles in Cuba than were counted going out. Kendall also mentioned the press interview of Sylvester of October 4, 1962.

After review with General Carter, Kendall was advised that the paragraph could stay in, deleting the specific number we had photographed and the language will merely indicate that our photographs did not reveal the total [] had coordinated this with DIA.

3. (Unclassified - GLC) George Murphy, Joint Committee on Atomic Energy staff, asked if the Agency would assist the Committee on an informal basis by having someone like [] review a chronology of events which have taken place in the atomic energy field for the period April 1962 through April 1963. This chronology is on a world-wide basis and has been informally submitted to the AEC which made some suggestions to the Committee. Murphy pointed out that their reason for requesting our assistance on this was to check the accuracy of Soviet events and any suggestions from a CIA standpoint as to the wording of the items on Soviet activities. The Committee's draft has been picked up and is being referred to OSI.
